IDEALS OF JESUIT HIGHER EDUCATION

The Society of Jesus proclaims that “the service of faith through the promotion of justice” is the mission that must be integrated as a priority into each Jesuit work. Jesuits purpose in education is to form men and women “for others”. The Society of Jesus has always sought to imbue students with values that transcend the goals of money, fame and success. We want graduates who will be leaders concerned about society and the world in which they live. We want graduates who desire to eliminate hunger and conflict in the world and who are sensitive to the need of the poor. We want graduates who seek to end sexual and social discrimination and who are eager to share their faith with others. Ultimately, we want our graduates to be leaders in-service. That has been the goal of Jesuit education since the sixteenth century. It remains so today.

The goal of higher education in our institutions is to challenge our students to reflect upon the value implications of what they study, to assess values and their consequences for human beings. Thus, the purpose of education is to enable the human person and the human community to be the loved ones God calls them to be and everything is *Ad Maiorem Dei Gloriam* – All for the greater glory of God. In Arul Anandar College, students would not be taught yesterday’s solution for tomorrow’s problems/challenges but they would be formed as men and women of vision for a better tomorrow. That is the reason our college has been reaccredited with ‘A’ Grade by NAAC. I would like to place before our distinguished Chief Guest and before the dignified body, the effective role played by our beloved staff, support staff and our students along with the Management towards achieving this inevitable record.

DEPARTMENT OF MATHEMATICS

A BRIEF NOTE ON THE ACTIVITIES OF THE DEPARTMENT

The Department of Mathematics has spread its wings of victory in all the endeavours of association activities, student progression, faculty empowerment and alumni networking during this academic year. The department remembers with gratitude and gladness, the unconditional contribution and commitment of the alumni for the betterment of the student community. The successful accomplishment of the National Conference on ***Recent Advances of Pure and Applied Mathematics with Industrial Applications*** and ***MATAAC-23***, a State level Intercollegiate Mathematical Competition on 9-10 March 2023 together mark the heritage of the department in kindling research aspiration of the young researchers and promoting the mathematical skills of the budding math masters. The department has vested its time and energy in conducting a ***Math Model Competition*** exclusively for the students of nearby rural schools to enrich their mathematical affinity. The faculty members of the department serve the students as an effective mentor, meticulous internship guide and benefactor and set them in the right channels of holistic development.

DEPARTMENT OF CHEMISTRY

A BRIEF NOTE ON THE ACTIVITIES OF THE DEPARTMENT

In this academic year 2022-23, various academic activities like Bridge Course in Chemistry for Freshers, CHEMFEST- an intercollegiate competition, an International Conference on *Expanding Frontiers in Chemistry (EFC 23)*, National Science Day celebration, various guest lectures and a new initiative Chemspark-intradepartmental competitions etc. were organised by Department.

In addition, our students brought laurels to the Department. They have received summer internships, student project from TNSCST, won many prizes in intercollegiate competitions, presented much research works at international conferences, placed at recognized industries, underwent internships by III UG students and participated in many training programmes. In addition, faculty of Department of Chemistry published five research articles in Scopus indexed articles and presented many abstracts in international conferences with ISBN. Two of our faculty namely Dr. M. Easuraja and Dr. K. Jansi Rani received seed money research grant from the management of Arul Anandar College. The Department organised an International conference on EFC 23 in which 7 eminent scientist delivered lectures. 81 abstracts were received which include 2 abstracts from Taiwan and 1 from Malaysia and the proceedings were released with ISBN. To encourage, motivate and to bring the hidden talents of students, **CHEMSPARK-an intradepartmental competition** was newly introduced, and various competitions was organised for the students of Chemistry department.

Prof. ARV fellowship sponsored by Dr. Mohamed Ibrahim Ph.D., Senior Scientist, USA, Dr. Prapha Ibrahim, Ph.D., Senior Scientist, USA, Prof. S. Ponnudurai, HOD of Chemistry (Retired), H. H. Rajah's College, Pudukkottai – 622 001 was given to 4 of our students (2 from II M.Sc., and 2 from I M.Sc.). Each student received Rs. 25000/- from this fellowship.

Besides, the Department arranged industrial visit to CECRI, Karaikudi, BioMe Live Analytical Centre, Karaikudi, Macofa Chocolate Factory (Manna Sweets), Anachal, Munnar, Kerala and Kannan Devan Hills Plantations, Company Private Limited (Tea Factory), Mattupetty, Kerala. In addition, the III B.Sc., students had undergone internship-training programme for 25 days as a part of curriculum at various industries.

In addition, students won many intercollegiate and intercollegiate competitions. The students have won OVERALL championship at Yadava College, Madurai and runner up in Ayya Nadar Janaki Ammal College, Sivakasai. The students also won many prizes at different intercollegiate CHEMFEST functions at various colleges.

Mr. F. Arun Pratheepan received summer research fellowship offered by IAS-INSA-NASI, Science Academies, Bengaluru, carried out the research work at IIT Ropar, Punjab for a period of 2 months with stipend (Rs. 12500/- per month). Mr. JP Hariharan and Mr. R. Ajaydev under the guidance of Dr. N. Savitha Devi received Rs. 7500/- from TNSCST, Chennai under student project scheme. Mr. AS Karmugil & Mr. S. Rejoy were selected for a skill-based training programme at CECRI, Karaikudi during this March 2023.

The department has also involved in many extension activities like Pongal Celebration at ARISE adopted village and a medical camp would be arranged.

This was organized by the mentor care unit of the college. Mr. A. James, Coordinator of Mentor Care unit anchored the meeting. Rev.Dr. A. Antonysamy, SJ, Counsellor of the college addressed the gathering as he was presiding the meeting in the absence of Rev.Fr.U Godwin Rufus SJ, Principal. The essence of mentoring in the nurturing of a complete individual was underlined by him. Moreover he stressed the need of dedicated mentors for successful nurturing of the student community. He added that Ms.F.M.Christeeba (full time counsellor) is available in the campus during the college hours to facilitate the students in approaching her. The session was taken over by Ms.F.M. Christeeba the counselor for the next 45 minutes. She spoke on the topic "Introduction to Mentor Care". Guidelines for the mentors were the main focus of her presentation. She explained what is not mentoring and derived the definition of mentoring. The major highlights of her presentation were to win the confidence of the mentees by the Mentors by a stable slow process. The stages in a successful mentoring process were depicted with mentoring skills. She cautioned the mentors to avoid selected behaviors which would destroy the trust. Her focus was more elaborate with two case studies which facilitated better understanding of the concept.

The forum was open for discussion. Dr.Charles Illayaraj, Assistant Professor, Department of Computer Science insisted the need to document the process of mentoring. This view was confronted by Dr.M.Easuraja, Assistant Professor, Department of Chemistry. He added that this documentation process will hamper the confidence developed between the mentor and the mentee. Dr.Viswanathan, Assistant Professor, Department of Computer Science stressed the need for extending the time allotted for mentoring. Rev.Fr.Anbarasu, S J Vice Principal of Shift I conveyed that this is a continuous process and should be done regularly with a specific yardstick like "1 student a day". Mr.Vijay Department of Tamil expressed that the ratio of mentor and mentee is highly variable among the departments and this issue has to be sorted out for an effective mentoring process. Finally the

programme ended with the vote of thanks by Dr.P.Arockia Juliet, Assistant Professor, Department of Commerce. The list of participants was documented.
