Summary of the Collaborative Activities during 2016-2021

Arul Anandar College is taking several initiatives and accomplishes many activities in collaboration with various industries, institutions and other organizations. As the college emphasizes more on employability, the curriculum has mandate accommodation of project, internship and in-plant training programmes. The institution leaves it to the discretion of the department to organize collaborative programmes subjected to student benefit and learner-centric.

Each department facilitates collaborative activities for both staff and students. The cordial relationship between the faculty members with other institutions, industries and organizations has smoothed the collaborative activities of research, project, internship and on-job training programmes. The college though organizes various collaborative activities do not circumscribe collaboration to the mentioned activities in the formal note, but still, it thinks beyond the borders as follows.

- To promote the attitude of self-reliance in the student community, they are permitted to get acquainted with other organizations on their own under designated faculty mentorship for their project, internship and on-job training programmes. The college strongly believes that this kind of collaborative activity undertaken by the students will certainly develop their self-learning and independence together with the acquisition of workplace and industrial exposure.
- The college encourages faculty members to publish research articles in collaboration with researchers worldwide.
- The college is bounded with the academic concern to the students of other institutions as a reflection of which the Research scholars and postgraduate students of other colleges are permitted to avail the laboratory facilities of the college and vice-versa.
