ORIENTATION PROGRAMME FOR STUDENTS

VETERINARY CAMP

Introduction

The main objective to write this report is that "it is rightly said that see and know is better than read and learn. As a students of RDS we learned the practical knowledge on animal science and also to exposure the social concern through treating of animal through ARISE village visit exposure. Through our interaction and observation with the people we found that in general the people not aware of hygienic and cleanliness of their surroundings.

Veterinary Camp

The department of Rural Development Science, ARISE and VETEX in association with Government Veterinary Hospital Karumathur organized Veterinary camp at Pullanery village on 15.09.2017. All the second year RDS students' were actively participated in the camp. The camp was started around 8.30 am. Rev. Fr. Mani valan S.J., Secretary, Arul Anandar College was the chief guest for the inaugural function of the camp. He gave wonderful presidential address for the People around the Pullanery village. Dr. Malarkannan,. Assistant Professor of Department of RDS along with the Doctor from Government Veterinary department treated the animals. Faculty members from Government Veterinary were participated the camp. All the second year students were guided by ARISE staff in charge Mr. AA.M. Michealraja and Dr. P. Ananthi. Mr. James, ARISE co ordinator promoted and supports us to conduct a marvelous camp in pullaner village.

ACTIVITYS: More the 70 cattle's and goat are treated by 3 doctors from G.H., Karumathur and our beloved Dr. Malar Kannan. It took nearly 5 hours for completion. We the student communities are fully pledged to help the doctors and some of students went to pass the information again for non-participants. More over farmer are very interest in participation. The camp is well planned and organized properly.

I would like to mention here, there is no charges had been collected. It is free of cost. Really I understand college management and ARISE is for the development of farmer and rural society.

DENGUE AND BLUE WHALE PROGRAMME

We had ARISE awareness program for Dengue and Blue Whale game on 21st September 2017, by the Department of Commerce with the approval of Arise Coordinator. Here I present my report on that program.

In Arise program the second year students had participated. They were gathered at Kottaiyur and assigned as pair in row then they went to all streets and created awareness among the people about Dengue and Blue whale game.

Then we had program at Poosaripatti. We gathered and started program at 4 pm. We invited the chief guest Asst Prof. Mr. Karunanidhi from the Department of Tamil and the Head of the Department Mrs. Rajeswari and other staff members are also participated. Then the program was started with prayer song and welcome address was given by Asst. Prof Mr. K. Kaleeswaran.

Then the chief guest Mr. Karunanidhi gave a speech and awareness of Dengue and Blue Whale. One of our students gave a speech on Blue whale awareness to the people and some of the students played a drama on dengue awareness.

At the end of the program we provided papaya leave juice to all the people and we also drank the juice. This awareness program was very useful for the village people and successfully we ended the program at 6 pm.

Dengue Awareness programme on 09.10.2017 at Pullanery village

Dengue Awareness rally was organized by the RDS students. All the students gathered in the primary school, the information chart, banners were distributed to the school children and students. Slogans on Dengue was prepared. The Rally started from the school and went around all the street of the village. The students created awareness about Dengue to the people by the exhibiting information chart and slogans. Finally the rally came to an end at the centre of the village and students performed the cultural programme. Mr. James, ARISE Coordinator was the resource person and gave wonderful message on Dengue to the villagers. The programme was useful to the village people as well as the school children. The school children enjoyed lot and learned some basic information about personal health and how to escape from the Dengue. Finally the students' evaluated the day programme.

RALLY – DENGUE AWARENESS

To create awareness about Dengue to the public the Rally was organized. Through the plug cards the students deliver the slogan about the cleanness and preventive measurements about dengue.

CONCLUSION:

The “RURAL ENRICHMENT AND SOCIAL AWARENESS” was successfully organized by the Extension department of ARISE, Jesuit community and the department of IT&M. The students were voluntarily involved all the activities and the village people actively participated in all the events to make the programme grand success.

SPECIAL DONATION

On 15.11.2017, we the second year students of the department of History made our visit to Vadakkampatty which is our ARISE field. As we had visited the people, we came across an old couple who were half blind and they neither had money to run their life nor anyone to look after them. They did not even have a proper shelter. Hence we thought to donate some economical help. We were very fortunate that we got help from a charity institution (through our professor in

charge of ARISE Dr Jenifa) who came forward to help them. And they promised to give cheque of 25,000/- as donation. This initiation was processed by **Fr Principal** and the management of **Arul Anandar College**.

PONGAL CELEBRATION

On 10th Jan 2018 we the 2nd students of the department of History organized a **Triple Celebration (Kg;ngU tpoh)** such as **Pongal Vizha, Sports Day for Children** and **Inauguration of Welfare Scheme (eyj;jpl;l cjtp Jtf;f tpoh)**. The function was organized by the second year students. In the morning, students conducted games for school children. In the afternoon, the programme was held in the elementary school. **Dr. Martin** the head of the department of history welcomed the gathering. **Fr Mahalingam**, the **Assistant professor of the dept. of RDS** headed the programme and felicitated and distributed the prizes to the school children. On the other hand, the **Arppanalaya Charitable Trust** donated an amount of **25,000/-**

to an old couple. Pongal was cooked by the students and distributed at the end.

Peter5 Michael Faj, Assistant Professor and Staff in-charge of ARISE , Department of physical Education proposed vote of thanks.

Mr. K. Muniyandi, Field Officer of ARISE and second year students of department Of physical education were meticulously organized this program in grant success.

FREE MEDICAL CAMP ON 21.02.2018

Due to the severe drought and heavy rains in the rural areas, most of these people are struggling for the livelihood and cannot afford the treatment for their diseases. Access to healthcare creates the opportunity for poor people to lead healthy lives and to build a promising future. To ensure such people to have a chance for a healthy life, the department of English (shift II) with ARISE of Arul Anadar College, Karumathur planned to conduct health camp in these areas, providing treatment and medicines to the poor and needy.

A free medical camp was organised on 21.02.2018 at Moonandipatti. The camp was organized in association with Sugam Hospital, Checkkanoorani. The team members of the hospital including one physician, one assistant, two nurses arrived at 9.00 a.m and there was a formal inaugural function. Dr. B.Kalidoss, Assistant Professor of English, welcomed the gathering. Rev. Fr. Godwin Rufus, Assistant Professor and Head, Department of English (Shift II) gave a felicitation address. Dr. Suresh addressed the gathering. Prof. James, the Co-ordinator, ARISE delivered a vote of thanks.

The full strength of II year students of English Department (shift II) was present at 8.30.a.m. The students shuttled back and forth from the beneficiaries' homes to the medical camp site to fetch people.

Medical camp was started at 9.30 am and ended at 12.30 pm. Free physical examination along with free Blood Pressure and medicines were provided.

From the morning itself people thronged and made a bee line to get the medical treatment and consultancy. Doctors advised them various medicines and offered consultation during the camp.

Even students used their bikes as an ambulance to bring the sick and old people to the medical camp.

Students extended their help like filling in the forms and assisting the medical team in every possible way.

Even they showed their humanity by offering their share of tea and biscuit to the people. This was also a great moment of love and compassion for the fellow human being. Their co-operation and dedication was highly laudable.

The camp was successfully organized by the department of English (shift II) under the guidance of Prof. James, the Co-ordinator, ARISE, Arul Anandar College. The Camp was coordinated by Dr. B.Kalidoss and Ms. Nesticia, faculty members of English Department (shift II). Mr.Muiyandi of ARISE, AAC extended his fullest co-operation in the coordination of the Camp.

Even though it was conducted in Moonandipatti, the people from nearby villages like Pullaneri, were also benefitted from the camp. Total 118 beneficiaries attended this medical camp. In this medical camp everyone was participated in which, families, old generation, young generation, and children were fully participated and converted this medical camp into great successful.

FIELD WORK

General Survey On 29.08.2017

Students of English (Shift II) conducted a general survey about living conditions, literacy, women's socio-economical conditions, water facility provided by the panchayat, hygiene, how children's education and their health care.

FIELD WORK

Dengue Awareness Programme on 22.09.2017

Children, young and old were at a higher risk for Dengue transmission in Tamilnadu few months back. In this connection, the department of English (shift II) of ARISE Programme planned to conduct an awareness programme in Moonadipatti. The challenge was thrown open on 22.09.2017 and II year students of English department went door to door to spread the message of taking precautionary measures against this threat and the message has reached more than 200 houses.

During checks conducted it was found not clearing garbage and water stagnation. As there is no drug to cure dengue or vaccine to prevent it, there are two key measures that can be applied to prevent the spread of Dengue. People were told about mosquito breeding sources need to be identified and cleared in around their home. Then only people could protect themselves from mosquito bites.

Thus we spread the message to more people and educated the public.

FIELD WORK

Awareness programme against Blue Whale game on 12.10.2018

Blue Whale game caused fear and anxiety among parents, many state governments, school education boards and schools. After considering the suicides committed by students in some states and two in Tamilnadu while playing the Blue Whale challenge, we planned to make school children aware of the dangers posed by virtual dare games like Blue Whale Challenge on 22.09.2018

We put out lists of guidelines to raise awareness about the twisted game. Our students grouped themselves and went to each and every street of the village and warned parents against this killer game. They were asked to keep away mobile phones from the reach of their children. Children, teen aged boys and girls were briefed about the danger of the game.

We also urged parents to keep a strict check on their children's online activities and spend considerable time with them.

FIELD WORK

Health awareness Programme on 02.2.2018.

Rural Healthcare is one of the biggest challenges that India is facing today. Apart from this, their situation is vulnerable because of lack of education and public health awareness. Towards creating a healthier society by popularizing preventive measures, the department of English (shift II) of ARISE Programme organised awareness programs on various issues of health and hygiene on 12.10.2017.

People were encouraged to incorporate healthy habits and take various preventive measures against Dengue and Chikungunya, eye, ear and dental problems. In addition, people especially children and women were also spurred to boost up their daily nutrition intake. They were also given information on how to integrate and maintain hygiene in their lifestyle.

Our students proved as the best messengers to carry the message to their parents, family and other community members.

FIELD WORK

Announcement of the forthcoming medical camp on 06.02.2018

The department of English (shift II) planned to organize a free medical camp shortly. In this connection we wanted to take this message and announce to the people of Moonandipatti and nearby villages like Pullaneri. Our students were divided themselves into so many groups and carried this message of the forthcoming medical camp.

FIELD WORK

Spreading the message of the free medical camp 20th February, 2018

On 20th February, 2018 students of II year, the department of English (shift II) of ARISE Programme assumed themselves as the real messengers and carried the message of free medical camp to be conducted the following on 21st February, 2018.

They went to door to door and met people, distributed the notice and explained them also. This result was experienced on the day of the camp as most number of beneficiaries attended the camp.

Data Collection - A Village Survey to implement Swathch Bharath and make India

14.03.2018

All the students were involved in the data collection. The Coordinator instructed to students to collect data from the villages about A Village Survey to implement Swathch Baharat and make India, the flagship programmes of Hon'ble Prime Minister of India by Colleges through NSS Volunteers and Students.

The faculty in charge of ARISE gave instruction to the students about data collection. The interview schedule consists of 15 questions, so the students were asked to spend time to gather all the information from the respondents.

The students spent two days to collect data. They met nearly fifty households and collected data.

They said that it was the new experience to them. Being a under graduate students that was the first time they had a formal interaction with the villagers.
